Summary

I hereby wish to express my desire to forward my as a candidate to the available vacancy. I believe that with the qualities I possess and dedication to my work together with the will to succeed, I will be a very much suitable candidate who will not only be an asset but a future prospect to the company.

Education

Langa Senior Secondary School

2011 - 2014

Mathematics, Physical Science, Life Sciences, Geography, Isixhosa, English, Life Orientation

Buffalo City Tvet College

January 2017 - November 2018

Mechanical Engineering

N1-N4

Engineering drawing, engineering science, mathematics, fitting and turning theory

Master Artisan Academy

December 2018 - November 2022

Fitting And Turning Apprenticeship

Fitting and Turning trade certificate

Theory and practical experience on lathe, milling machine, pumps, stick welding, pneumatics and hydraulics, hand skills, power tools

Experience

Oria-man (Kendal Power Station)

01 April 2024 - 30 October 2024

Mechanical Fitter

Water plant, oil fuel plant and auxiliary plant.

Bearings management, oil heaters maintenance, high and low pressure pumps maintenance, valve maintenance and

Skills

Time management, safety awareness, working under pressure, schematic reading and blue print

Languages

English, Isixhosa, isizulu

Interest

Career growth

monitoring, gearbox maintenance, plant components lubrication, pipeline monitoring

Supreme Moulding

February 2023 - September 2023

Artisan Assistant

Granulator lubrication and maintenance, heat exchanger installation, aisle guard fabrication, saw cutting pneumatics repair, shrink wrapper chain drive, splitters, laminators maintenance, extruder maintenance, turning on a lathe, milling machine operator

Little Green Beverages

January 2021 - August 2021

Artisan Assistant

Maintenance of a blow molder of bottles, checking of malfunctioning bearings, pulley alignment, sprocket alignment, changing bottle mould, conveyor idle pulley settings, pump maintenance (checking for oil discoloration, checking worn gaskets, disassemble to check the wear and corrosion on the impeller and casing)
Adjustments of the mechanical seal

Gehring Engineering

June 2019 - March 2020

Turner Assistant

Machining of threads, taper turning, turning to fine tolerances of bearing size, flange marking and drilling, gas cutting, arc welding building frames, all the milling operations, machining to fine tolerances, facing, drilling, rebuilding of rollers
